REASON FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the prior does not teach all of the limitations of the claimed invention including:

- forming said stationary member, said movable member and said support member on a single silicon substrate by means of photolithography and plating; and
- removing the silicon substrate from under the movable member so as to make the movable member to be supported by the silicon substrate by way of the support member,
- wherein said step of removing the silicon substrate is a step of anisotropically etching the silicon substrate from the rear surface thereof.

Accordingly, claim 10 is allowed.
